

# architectural lighting

04 | 2025

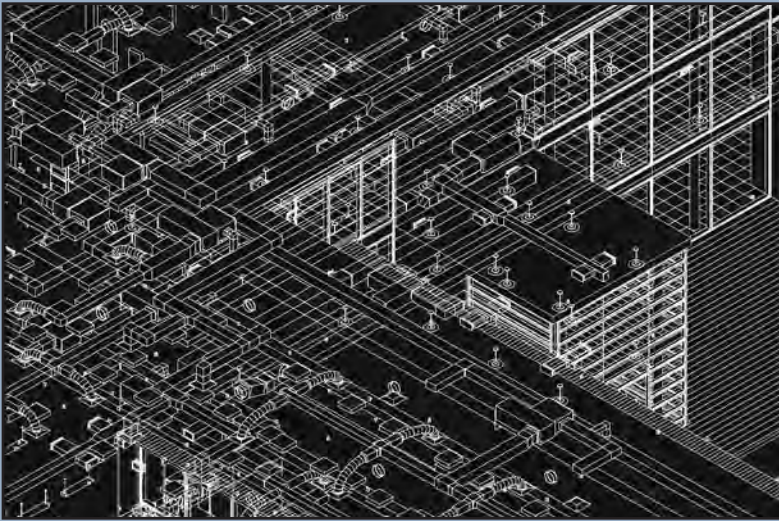

## TECHOLED

is a leading lighting manufacturer, based in Brooklyn, NY. We specialize in delivering complex, functional, high-end architectural luminaires. Innovation is at the forefront of our product line, which is constantly being expanded to meet the ever-evolving needs of our customers.

## THE METHOD

We work closely with the design community throughout the specification process, from 'sketch on a napkin', shop drawings, mock-ups, photometric calculations, to complete delivery, installation, and after-market support.

## SUPPORT

Our products are designed with contractors in mind. We're hands on, whether coordinating specifications prior to manufacturing or job site visits, we're always there to help.

# HALO'S D

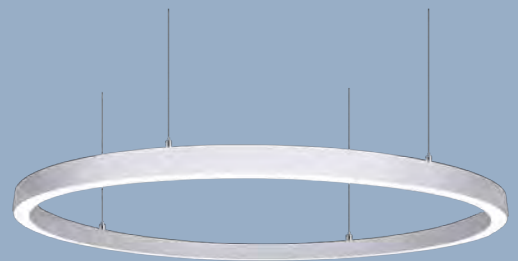

# HALO'S

## HALO's

TechoLED HALO Series offers round fixtures with sleek and modern look. Direct and indirect as well as inner and outer illumination options and sizes starting at 2 feet and going all the way to 17 feet!

02

Linear

## Linear

TechoLED has a comprehensive portfolio of specification grade linear products. Sizes starting at just  $\frac{3}{4}$  of an inch and wide variety of form factors, such as louvres, spotlights and direct/indirect illumination. With almost unlimited options to create patterns, rectangles, continuous linear runs, custom lumen packages, finishes and more.

# Flex Series

03

# Flex Series

## Flex Series

Flex Series is smooth, seamless rope of light, without any visible diodes or dark spots. With ability to effortlessly rotate and weave in space, you can create unprecedented light creations. Available in either pliable or non-pliable versions, indoor and outdoor (IP67) with wide variety of mounting hardware and accessories.

# Magnetic Track

04

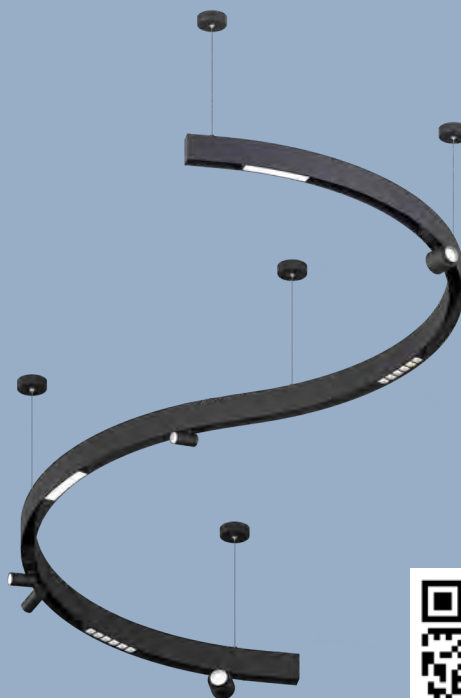

# Magnetic Track

## Magnetic Track

TechoLED Magnetic Track is creative and flexible architectural solution. Recessed, surface mount, and pendant tracks are made from high grade aluminum extrusions and have full ability to do curves and circles – with the track as well as the light modules. The modules, ranging from solid linear, louvre, wall washer, adjustable spotlights and decorative pendants, snap in the track magnetically and can be repositioned by hand, without tools. Great for interior retail, hospitality, office, and residential applications.
